Hi Chloe,

Here is my suggestion for editing this item:

**Review of National Monuments.** PPA has completed the work it was requested to do with respect to this review. Follow-up assistance will be undertaken if requested.

Ben

Hey Ben-

Has this task been completed? It's in the Week Ahead report but it hasn't been edited in a long time.

**Review of National Monuments.** Per EO 13792 (April 26, 2017) PPA is assisting with an effort led by Randall Bowman to gather data for a review of approximately 30 National Monuments designated or expanded since 1996 under the Antiquities Act. A final report is due within 120 days of the date of the EO. An interim report on Bears Ears NM was sent to the President on Saturday, June 10, 2017. Both reports are to include recommendations for Presidential actions, legislative proposals, or other actions to ensure that designations “made in accordance with the requirements and original objectives of the Act and appropriately balance the protection of landmarks, structures, and objects against the appropriate use of Federal lands and the effects on surrounding lands and communities.”
